**DECLARATION OF INTEREST** 

PLANNING	AND ECONOMY	13
PE1	Greater Macarthur Priority Growth Area	16

### Wollondilly Community Strategic Plan 2033

Council's format for reporting to our Ordinary Council Meetings will follow the:

**1** Wollondilly Strategic Plan 2033 themes:

Looking after the **Community** | Accountable and Transparent **Governance** | Caring for the **Environment** | Building a strong local **Economy** | Management and Provision of **Infrastructure** 

Under each of these themes are **Outcomes** – expressions of what we want to achieve in the long term which will be reflected in our reports.

2. Sustainability Principles (reference page 10 of the CSP 2033)

Equity | Precaution | Regeneration | Engagement | Sharing | Access | Participation | Rights | Governance

"Council will build the above principles into all facets of our organisation and everything we do."

### 1. Community

### Outcomes

- 1. Access to a range of activities, services and facilities.
- 2. A connected and supported community.

### **Strategies**

CO1 - Community Building, Well-being and Identity

Deliver a range of community programmes, services, facilities and events which strengthen the capacity, well-being and cultural identity of our community.

CO2 - Working with Others

Work with other agencies and service providers to deliver community programmes, services and facilities which complement and enhance Council's service provision.

- CO3 Social Planning Undertake strategic social planning and research regarding community needs and issues.
- CO4 Engagement and Communication

Implement excellence in our community engagement by listening to and responding to the needs and concerns of our residents.

### Governance

### Outcomes

- 1. Government, community and business talking and working together.
- 2. A Council that demonstrates good business management and ethical conduct.

### Wollondilly Community Strategic Plan 2033

### **Strategies**

GO1 -	Quality Employer
	Provide an attractive employment choice for talented people.
GO2 -	Best Practice Governance
	Be a leader in best practice local government governance.
GO3 -	Customer Service
	Deliver responsive and helpful services to all our customers.
GO4 -	Advocacy
	Advocate strongly for the interests of Wollondilly and its community.
GO5 -	Financial Sustainability
	Maintain Council in a strong and sustainable financial position.
GO6 -	Resource Efficiency
	Be efficient and effective in the use of Council resources and provide value for money in the delivery of services.
GO7 -	Information Management
	Ensure best practice approach as to the delivery of quality information and technology services.
GO8 -	Corporate Image
	Promote a positive representation of Council's corporate image.

### Environment

### **Outcomes**

- 1. Our local environment that is valued and protected.
- 2. A community that interacts with and cares for their environment.

### **Strategies**

- EN1 Biodiversity Resilience Protect and conserve biodiversity and natural resources, including waterways, riparian lands and groundwater dependent ecosystems.
- EN2 Growth Management Apply best practice environmental principles to the management of future growth.
- EN3 Development Assessment Apply best practice environmental principles to the assessment of development and planning proposals.
- EN4 Environmental Responsibility Educate and promote legislative environmental responsibilities to the community.
- EN5 Auditing, Monitoring and Enforcement Undertake auditing, monitoring and regulatory enforcement to protect the environment and the health, safety and well-being of the community.
- EN6 Waste Management Improve waste minimisation and recycling practices in homes, workplaces, development sites and public places.
- EN7 Sustainable Living Educate, promote and support low consumption, sustainable lifestyles and lowering of the Shire's carbon footprint.

### Wollondilly Community Strategic Plan 2033

### Economy

### Outcomes

1. A strong local economy providing employment and other opportunities.

### **Strategies**

EC1 - Economic Development

Enhance economic development in Wollondilly Shire through innovative engagement and ongoing promotion of our strengths.

- EC2 Planning for and Supporting Business Strengthen and diversify Wollondilly's economic base by attracting and supporting the development of a diverse range of industries.
- EC3 Manage Growth Encourage and manage growth to ensure that it contributes to economic well-being.
- EC4 Managing Development and Land Use Manage and regulate land use and development in order to achieve a high quality built environment which contributes to economic well-being.
- EC5 Protect Natural Resources Protect natural resources so as to contribute to the Shire's economic well-being.

### Infrastructure

### Outcomes

- 1. Safe, maintained and effective infrastructure.
- 2. Access to a range of transport options.

### **Strategies**

IN1 - Maintain Road Network

Ensure that the road network is maintained to a standard that is achievable within the resources available.

- IN2 Manage Road Network
   Manage the road network to respond to community needs, growth in the Shire, improving road safety and improving transport choices.
   IN3 Provision of Facilities
  - Provide a range of recreation and community facilities to meet the needs of the community.
- IN4 Emergency Management Plan for and assist in the community's response to emergencies such as bushfires and flooding.
- IN5 Advocacy and Lobbying

Represent our community with regard to external services including energy, communications, water, waste management and resource recovery.

### 2. Environmental Principles

### EQUITY

We uphold the principles of intragenerational and intergenerational equity and fairness in how resources are distributed within this generation and between this and future generations.

#### PRECAUTION

We adopt the precautionary principle which is that actions that have the potential to harm our environment should not be undertaken if the consequences are uncertain and the science inconclusive.

#### REGENERATION

We work to protect and restore the earth's ecological integrity, biological diversity and natural processes.

#### ENGAGEMENT

We recognise that sustainability will happen faster if local communities become champions of sustainability and are involved in the decisions affecting sustainability.

#### SHARING

We will work with others to share resources and knowledge and to promote sustainability.

### Social Justice Principles

#### EQUITY

We will strive for the fair distribution of resources with a particular emphasis on protecting those people who are considered vulnerable.

#### ACCESS

We will provide all people with opportunities to use relevant services and facilities regardless of their circumstances.

#### PARTICIPATION

We will encourage and provide opportunities for people to take part in decision making processes that impact on their quality of life.

#### RIGHTS

People should not be discriminated against and everyone is entitled to honesty, information and involvement.

#### GOVERNANCE

People deserve responsible governance and fair and accountable decision making.

# Planning & Economy

### Matters for Consideration – General Under Section 79C(1) of the Environmental Planning & Assessment Act 1979 (EP&A)

"In determining a development application, a consent authority is to take into consideration such of the following matters as are of relevance to the development the subject of the development application:

- (a) the provisions of:
- (i) any environmental planning instrument, and
- (ii) any draft environmental planning instrument that is or has been placed on public exhibition and details of which have been notified to the consent authority (unless the Director-General has notified the consent authority that the making of the draft instrument has been deferred indefinitely or has not been approved), and
- (iii) any development control plan, and
- (iiia) any planning agreement that has been entered into under Section 93F or any draft planning agreement that a developer has offered to enter into under Section 93F, and
- (iv) the regulations (to the extent that they prescribe matters for the purposes of this paragraph),

that apply to the land to which the development application relates,

- (b) the likely impacts of that development, including environmental impacts on both the natural and built environments, and social and economic impacts in the locality,
- (c) the suitability of the site for the development,
- (d) any submissions made in accordance with this Act or the regulations,
- (e) the public interest.

### Relevance to Community Strategic Plan

### **RELEVANCE TO COMMUNITY STRATEGIC PLAN – PLANNING AND ECONOMY**

The reports contained within this section of the agenda outline actions and activities that contribute to the achievement of the outcomes as outlined in your Community Strategic Plan 2033.

### PE1 – Greater Macarthur Priority Growth Area

#### PLANNING AND ECONOMY

#### PE1 Greater Macarthur Priority Growth Area 266876

TRIM 8520

#### EXECUTIVE SUMMARY

- This report seeks a resolution to make a submission to NSW Department of Planning regarding exhibition of the Greater Macarthur Priority Growth Area, which includes Appin village and Appin West.
- Under legislation, a person who makes a relevant planning application or public submission is required to disclose any reportable political donations. The disclosure requirement extends to any person with a financial interest in the application or any associate of the person making a public submission. No disclosure of political donation has been made in association with this application.
- It is recommended that the comments relating to the Greater Macarthur Priority Growth Area and draft amendments to State Environmental Planning Policy (Sydney Growth Centres) outlined in this report and summarised below be forwarded to the NSW Department of Planning for their consideration:
  - Given the land supply is likely to meet the housing demand well beyond 2036, West Appin should not be included as a Priority Growth Area.
  - Funding priority should be given to other priorities in the road network for Appin, prior to any funding commitment to the additional east-west link connecting Appin Road to the Hume Highway.
  - The upgrade of Appin Road between Appin village and Campbelltown and completion of the Appin Bypass should be undertaken in association with land release at Mr Gilead and Menangle Park.
  - Any benefit which flows to Appin village in terms of negotiated Voluntary Planning Agreements and/or Special Infrastructure Contributions for land release should extend beyond road upgrades and address utility and social infrastructure needs.
  - Greater strategic direction is required in relation to the assessment of existing planning proposals currently before Council and the Joint Regional Planning Panel.

### PE1 – Greater Macarthur Priority Growth Area

### REPORT

### 1. BACKGROUND

In December 2014, NSW Department of Planning ("Department") released A Plan for Growing Sydney, which nominated the Greater Macarthur region for urban release investigation.

In September 2015, the Department released the Greater Macarthur Land Release Investigation – Preliminary Strategy and Action Plan ("Preliminary Strategy"). Two precincts within the investigation area (i.e. Wilton Junction and Mt Gilead/Menangle Park) were identified for future urban release. West Appin was identified for potential urban release beyond 2036.

The Preliminary Strategy and proposed amendments to State Environmental Planning Policy (Sydney Growth Centres) ("Growth Centres SEPP") were placed on exhibition in late 2015. Council considered a report on the exhibition material at the November 2015 Ordinary Meeting. A copy of the resolution from that meeting forms Attachment 1. The report and resolution from the November 2015 Meeting was submitted to the Department for their consideration.

### 2. <u>RECENT ANNOUNCEMENT</u>

On 29 July 2016 the Minister for Planning, Rob Stokes made the following announcement:

- (a) The Growth Centres SEPP has been amended to include Wilton New Town as a Priority Growth Area.
- (b) The Mt Gilead/Menangle Park precinct has been expanded to included West Appin and the Glenfield to Macarthur Corridor for re-exhibition purposes.

A copy of the revised precinct referred to as the Greater Macarthur Priority Growth Area forms Attachment 2.

The Department has placed the revised precinct and draft further amendment to the Growth Centres SEPP on public exhibition from 1 to 30 August 2016. It is also understood that the Department is organising an Information Session in the near future. The details of which have not been confirmed.

### PE1 – Greater Macarthur Priority Growth Area

#### 3. LAND AT WEST APPIN

The following information is an extract from the Greater Macarthur Land Release Investigation – Consultation Update released by the Department (see Attachment 3).

"Land at West Appin Several submissions were received seeking designation of land at West Appin as a priority growth area. This land was identified as suitable for urban development by the Greater Macarthur Land Release Investigation, with capacity for approximately 18,000 homes. The submissions supporting land release argued that the release of additional land was necessary to meet Sydney's housing needs. The submissions argued the land was suitable for development as it was not encumbered by mining and not viable for continued agricultural use. It was argued that the cost of required infrastructure could be supported by the additional development and would provide the potential for improvements to existing local infrastructure.

In addition to those supporting land release, several submissions were received raising concerns with increased development in and around Appin Village on the grounds of impacts on roads (in particular Appin Road), biodiversity, heritage/archaeology, and impact on the rural setting of the village.

The Preliminary Strategy concludes that West Appin is not identified for major land release prior to 2036, but is identified as having potential for release in the longer term.

Land release at this location would trigger significant physical and social infrastructure requirements, including an east-west connection and interchange between Appin Road and the Hume Highway, a significant Nepean River crossing, additional upgrade of Appin Road, and the Appin bypass.

Utilities infrastructure needed to support growth can be rolled out most efficiently in Menangle Park and Mount Gilead before West Appin.

There is sufficient land supply to address the forecast demand for housing and employment land in the North West and South West Priority Growth Areas and also in the new proposed priority growth areas at Wilton and Menangle Park and Mount Gilead.

Beyond 2036, long term strategic transport infrastructure, such as construction of the Outer Sydney Orbital, could make West Appin land release more cost effective and could be a driver for the creation of jobs that this part of Sydney needs.

#### PE1 – Greater Macarthur Priority Growth Area

While the release of land in West Appin prior to 2036 is not required to meet growth needs at this time, the recognition of the area's long-term potential without identifying it as a growth area has created uncertainty among land owners and the community regarding future planning outcomes for the area. To provide clarity of the long-term capability of this land, it is proposed to include West Appin within the boundary of the proposed Greater Macarthur Priority Growth Area, to be exhibited shortly.

Such an approach is consistent with the approach taken for the North West and South West Priority Growth Area, which identified a long-term pipeline of land for housing. This provides a pathway for Government to formally engage with landowners and the community on the long term planning of the area and will inform infrastructure planning and setting of funding priorities.

The rezoning and development of land at West Appin is required to be consistent with the Preliminary Strategy, which identifies Wilton New Town, Menangle Park and Mount Gilead as being delivered first.

The timing of the release of additional land will be considered as part of future review and updates to the Preliminary Strategy. Decisions will be informed by further technical analysis of transport and utilities servicing requirements, environmental impacts, land use constraints and opportunities, and land supply and demand forecasts.

Future proposals for rezoning and development of land at West Appin will need to ensure community concerns are satisfactorily addressed before any development is able to proceed. This includes ensuring necessary transport and social infrastructure is in place and environmental impacts are appropriately addressed, including providing green separation between villages.

In the short term, the overarching strategy does not preclude the advancement of planning proposals that are consistent with the rural character of Appin. Current proposals to expand the Appin Village in the Macquariedale Road area are worthy of investigation and should be assessed under the usual processes, applying merit based decisions by the relevant planning authority."

### PE1 – Greater Macarthur Priority Growth Area

### 4. SUBMISSION TO EXHIBITED MATERIAL

The following comments are provided in relation to the information contained in the Consultation Update. It is intended these comments will form part of Council's submission to the Department.

### (a) Long term housing supply

The Department recognise that there is sufficient land supply to address the forecast demand for housing and employment land in the North West and South West Growth Areas and Wilton New Town. It is further suggested that utility infrastructure can be rolled out most efficiently in Menangle Park and Mt Gilead before West Appin.

**Comment:** Given the land supply mentioned above is likely to meet the housing demand well beyond 2036, Council questions the need to identify West Appin as a Priority Growth Area. Whilst it may assist the State Government in terms of infrastructure planning and setting of funding priorities it will create uncertainty for Council in relation to our Growth Management Strategy for the wider shire area.

### (b) Infrastructure requirements

The Department has highlighted that development at West Appin will trigger the need for an additional east-west road connection between Appin Road and the Hume Highway, an upgrade of Appin Road and the Appin Bypass.

**Comments:** Council does not dispute the need for an additional east-west road connection. This additional road connection will reduce current traffic congestion experience through Appin Village, along Picton Road and Wilton Road. However funding priority should be given to other priorities in the road network for Appin, prior to any funding commitment to the additional east-west link. It is further suggested that the east-west link should reflect the proposed corridor for the M9 Outer Sydney Orbital, which is still under consideration.

As previously submitted by Council, the upgrade of Appin Road between Appin village and Campbelltown should be undertaken in association with land release at Mr Gilead and Menangle Park.

Similarly completion of the Appin Bypass should not be delayed to co-incide with land release at West Appin. It would be appropriate for any Special Infrastructure Contribution/ State Planning Agreement negotiated by NSW Government for release of land at Menangle Park and Mt Gilead to fund construction of the Appin Road upgrade south to Appin Village and the Bypass around the village.

#### PE1 – Greater Macarthur Priority Growth Area

### (c) Existing Villages

It is noted that the Greater Macarthur Priority Growth Area, includes the village of Appin. Elsewhere in documentation produced by the Department it suggests:

"Wollondilly Council and State Government want to maintain the character and setting of the villages of the region, including Appin Village, Menangle and Douglas Park. This means that the villages will have green space separating them from bigger urban areas. The green space will be a mix of rural land and open space.

Small scale expansion will be considered on its merit where:

- Existing infrastructure can cope with only minor upgrades
- Proposals retain a green edge".

**Comments:** Whilst Appin village is included in the potential Priority Growth Area, the key to the supplied map suggests its rural village character will be retained. It is noted that Menangle and Douglas Park are outside the mapped growth area. By including Appin village in the potential growth area it is assumed that benefit may flow to the village in terms of negotiated Voluntary Planning Agreements and/or Special Infrastructure Contributions. These benefits need to extend beyond road upgrades and address utility and social infrastructure upgrades.

The Department continues to refer to "small scale" land release proposals being considered on their merits. Council has previously raised concern about the use of such language in terms of what constitutes small scale development. Putting West Appin aside, Council has planning proposals for an additional 460 lots (approximately) in and around Appin Village. The latest documentation creates uncertainty from a strategy planning perspective for Council. The Joint Regional Planning Panel may also be uncertain in terms of how to proceed with the Station Street Planning Proposal which surrounds Menangle village.

#### **FINANCIAL IMPLICATIONS**

This matter has no financial impact on Council's adopted Operational Plan. Listing West Appin as a Priority Growth Area will have resourcing implications in future years.

### **ATTACHMENTS**

- 1. Minutes of the Ordinary Meeting held on 16 November 2015 PE7 Greater Macarthur Land Release Investigation.
- 2. Copy of the revised precinct referred to as the Greater Macarthur Priority Growth Area
- 3. Greater Macarthur Land Release Investigation Consultation Update, June 2016.

### PE1 – Greater Macarthur Priority Growth Area

### RECOMMENDATION

That the comments relating to the Greater Macarthur Priority Growth Area and draft amendments to State Environmental Planning Policy (Sydney Growth Centres) outlined in this report and summarised below be forwarded to the NSW Department of Planning for their consideration:

- Given the land supply is likely to meet the housing demand well beyond 2036, West Appin should not be included as a Priority Growth Area.
- Funding priority should be given to other priorities in the road network for Appin, prior to any funding commitment to the additional east-west link connecting Appin Road to the Hume Highway.
- The upgrade of Appin Road between Appin village and Campbelltown and completion of the Appin Bypass should be undertaken in association with land release at Mr Gilead and Menangle Park.
- Any benefit which flows to Appin village in terms of negotiated Voluntary Planning Agreements and/or Special Infrastructure Contributions for land release should extend beyond road upgrades and address utility and social infrastructure needs.
- Greater strategic direction is required in relation to the assessment of existing planning proposal currently before Council and the Joint Regional Planning Panel.

	WOLLONDILLY SHIRE COUNCIL	
	linary Meeting of Wollondilly Shire Council held in the Council Chamber, treet, Picton, on Monday 16 November 2015, commencing at 6.32pm	
<u>.</u>	Planning and Economy	
	Council opposes the inclusion of a proposed double lane road from Menangle Park through to Douglas Park, which will need to be constructed over the Nepean River, under a heritage listed rail bridge and through a village that does not have the space to accommodate four lanes and falls within a with a Landscape Conservation Area. Council also opposes the map reference called Douglas Park North. Council ensure that all heritage reports held in relation to Menangle village be forwarded to the Department of Planning for their consideration Beyond 2036, the Department of Planning investigate growth options consistent with Council's Growth Management Strategy which seeks preservation of agricultural land, biodiversity conservation and rural living through the separation of towns and villages in line with Council's desire for classification as a peri- urban area. Council supports the classification of Class 2 soils as encumbered land and recognises its value as a resource which benefits from a water allocation from the Nepean River Council supports agriculture being identified as a prominent land use in the study area and considers it to be an important provider of employment which has a multiplier effect Further threshold testing be conducted by the Department of Planning to ascertain the need for a civic centre at Wilton and capacity of existing Group when it becomes available The Department of Planning be advised that Council supports an application to establish a National Park / Reserve in the Nepean Gorge adjacent to West Wilton and hence a significant buffer is required to protect the Gorge from the impacts of development. Council request that the Wilton Junction Precint rezoning be placed on public exhibition a soon as possible. At the latest the rezoning should be placed on public exhibition concurrently with the Greater Macarthur Land Use and Infrastructure Strategy, currently timetabled for early 2016. This will ensure that the delivery of the new town, including housing supply, jobs and required infrastructu	Planning and

	ATTACHMENT 3 –TRIM 8520 – 8 AUGUST 20
1	Introduction
1.1	Background
the incl and	e NSW Government published A <i>Plan for Growing Sydney</i> in December 2014. The Plan sets out Government's strategy for meeting Sydney's housing supply needs over the next 20 years. This udes identifying new locations that could contribute to meeting the housing supply challenge, now I beyond 2036 (Action 2.4.2). The initial focus of these investigations was the Greater Macarthur id Release Investigation Area, located south and south-west of Campbelltown-Macarthur.
priv tow	e investigations have identified immediate opportunities to release and rezone land to allow the rate sector to deliver up to 35,000 home sites in Menangle Park and Mount Gilead and in a new in at Wilton. Realising these opportunities would provide new homes for Sydney's growing pulation.
	e new growth areas will proceed on a 'no additional cost to Government' basis, led by private estment and proposals.
out Gile	e Greater Macarthur Land Release Preliminary Strategy and Action Plan (Preliminary Strategy) sets the Government-endorsed vision and plan for Wilton New Town and Menangle Park / Mount ead. The Minister for Planning released the Preliminary Strategy on 22 September 2015 for keholder and community feedback.
infr con in S SEI	ximising these opportunities requires a coordinated approach to land use planning and astructure delivery. To achieve this, the Department of Planning and Environment (the Department) isulted on proposals to identify Wilton and Menangle Park / Mount Gilead as priority growth areas State Environmental Planning Policy (Sydney Region Growth Centres) 2006 (the Growth Centres PP). The proposed amendments to the Growth Centres SEPP were publicly exhibited alongside Preliminary Strategy, from 22 September 2015 until 18 November 2015.
pro sub	e public exhibition enabled land owners and other interested parties to view, understand, and vide comment on the proposals. Following public exhibition, the Department reviewed the omissions to begin the process of addressing the issues raised and to finalise the Strategy and PP amendments.
Thi	s report:
•	documents the public consultation process;
•	summarises the issues raised by stakeholders in submissions on the Preliminary Strategy and proposed SEPP; and
•	reports on how those issues have been addressed in finalising the Strategy and SEPP amendments, or will be addressed as part of subsequent detailed planning stages.
1.2	Overview of exhibited amendments to Growth Centres SEPP
	e exhibited SEPP amendments proposed to include Wilton New Town, Menangle Park and Mount ead in the Growth Centres SEPP by inserting new maps in the Growth Centres SEPP ( <b>Appendix</b>
	as proposed to also make consequential amendments to the operative provisions of the Growth ntres SEPP, to reflect the inclusion of the new priority growth areas:
•	Amends clause 2(a) to include reference to the new priority growth areas in the Objectives of the
•	SEPP; Amends clause 3(1) to include Wilton Priority Growth Area and Menangle Park/Mount Gilead
	Priority Growth Area in the definition of "growth centre" and reference the new maps;
•	Amends clause 3(1) to include precincts identified on the new maps in the definition of "growth centre precinct"; and
•	Amends clause 3(1) to identify the Preliminary Strategy as the structure plan for the priority growth areas, guiding future planning and land use decisions.

PE1 – Greater Macarthur Priority Growth Area	
ATTACHMENT 3 –TRIM 8520 – 8 AUGUST 2016	
<ul> <li>Clauses 18 (Water recycling and conservation), 18A (Public utility undertakings and clearing of native vegetation) and 18B (Electricity generating works and water recycling facilities) will not apply to the new priority growth areas. The provisions of <i>State Environmental Planning Policy (Infrastructure) 2007</i> will continue to govern the carrying out of public utility undertakings.</li> <li>The proposed SEPP does not release or rezone land at this stage. Existing land use zones and permissible uses will continue to apply until rezoning occurs, as per the respective local environmental</li> </ul>	
plan (LEP). The proposed SEPP identifies Bingara Gorge as a separate precinct within the Wilton Priority Growth Area as this land has already been rezoned for urban development and is subject to the provisions of Wollondilly Local Environment Plan 2011 and Wollondilly Development Control Plan 2016. The proposed SEPP makes this clear.	
Post-exhibition changes to the proposed Wilton Priority Growth Area are outlined in <b>Section 5</b> .	
Following consideration of community and stakeholder feedback, it is proposed to bring Menangle Park and Mount Gilead into the Growth Centres SEPP through a subsequent amendment as part of proposals for an expanded Greater Macarthur Priority Growth Area. The proposed priority growth area covers the Glenfield to Macarthur Urban Renewal Corridor and land release areas at Menangle Park, Mount Gilead and West Appin, to coordinate the planning of growth in and around the Campbelltown- Macarthur Regional City Centre. The proposal will be exhibited shortly for stakeholder and community feedback.

2	Public exhibition
2.1	Exhibition and Submissions Period
Grow	Preliminary Strategy and an Explanation of Intended Effect of proposed amendments to the th Centres SEPP was publicly exhibited from 22 September 2015 to 18 November 2015. This led a two week extension to the formal exhibition period, following a number of requests from holders. The Department accepted a small number of late submissions until 9 December 2015.
2.2	Exhibited Materials
	ollowing documentation was publicly exhibited as part of the Preliminary Strategy and proposed amendment package:
•	Explanation of Intended Effect (Appendix A)
•	Maps showing proposed growth centre boundaries (Appendix A)
•	Preliminary Strategy
•	Land Use and Infrastructure Analysis report and
•	Community brochure.
Analy Strate study	ey findings of all the draft technical studies are summarised in the Land Use and Infrastructure sis report. The Department published the draft technical studies that informed the Preliminary gy on its website on 13 October 2015 following public requests. The draft Strategic Transport report was made available on 26 October 2015, following approval from Transport for New Wales.
	rt video outlining the proposed priority growth areas was also created and available on the rtment's website.
2.3	Exhibition Venues
The e	xhibition package was made available to the public for viewing at the following locations:
•	Department of Planning & Environment, Level 5, 10 Valentine Avenue, Parramatta
•	Department of Planning & Environment, 23-33 Bridge St, Sydney
•	Campbelltown City Council, 91 Queen Street, Campbelltown
•	HJ Daley Library, 1 Hurley Street, Campbelltown
•	Wollondilly Shire Council, 62-64 Menangle Street, Picton
•	Department of Planning & Environment website: www.planning.nsw.gov.au/greatermacarthur
2.4	Public Notice
	dia release was made by the Minister for Planning on the release of the Preliminary Strategy and of the exhibition period:
•	New Land Release Will Boost Housing Supply – Tuesday 22 September 2015.
	nedia release was supported by a launch event in Menangle Park on 22 September 2015, ded by the Minister.
Notic	es were placed in the following newspapers advising details of the public exhibition:
•	Wollondilly Advertiser – Wednesday 30 September 2015
	Campbelltown-Macarthur Advertiser – Wednesday 30 September 2015

Greater Macarthur Land Release Investigation Post Exhibition Planning Report

2.5	Land Owner Notification
rates the p	Department wrote to all land owners (as recorded on Wollondilly and Campbelltown Councils' a database) within the Greater Macarthur Land Release Investigation Area, which encompasses proposed priority growth areas, at the start of the exhibition period notifying them of the release of Preliminary Strategy and proposed SEPP amendments.
	ication included details of the exhibition period, contact details for the Department and informatio ow to make submission.
2.6	Social media campaign
adve Men	Preliminary Strategy and exhibition was promoted through a series of adverts on Facebook. The erts were geo-targeted to reach people living within Appin, Campbelltown, Douglas Park, Maldon, angle and Wilton. The adverts had a combined reach of over 217,000 people and generated 0 visits to the exhibition website.
2.7	Media coverage
	release of the Preliminary Strategy and exhibition also received considerable coverage in both and national media, including:
	<ul> <li>Channel 7 national news – 22 September, 28 October and 19 November 2015</li> </ul>
	<ul> <li>Channel 9 national news – 22 September 2015</li> </ul>
	<ul> <li>Channel 10 national news – 22 September 2015</li> </ul>

4	Consideration of submissions
	ollowing section summarises the key issues raised by stakeholders in submissions and how they eing addressed.
4.1	Suitability of the area for growth
	nain concerns raised in submissions related to the potential impacts of large scale growth in the
	Loss of agricultural land
:	
:	
•	· · · · · · · · · · · · · · · · · · ·
:	
consi	Greater Macarthur Land Release Investigations were informed by several technical studies that dered the suitability of land for urban development based on environmental values and raints, including the location of important biodiversity, waterways, agriculture, mining and ige.
	Preliminary Strategy sets out pathway steps to ensure future rezoning processes address these s, such as by protecting important habitat and waterways.
to est curre Infras place Trans	Preliminary Strategy and proposed amendments to the Growth Centres SEPP are an initial step tablish a framework to coordinate planning and development for the area. These issues are ntly being considered further as part of the preparation of more detailed Land Use and structure Strategies for each growth area, to ensure appropriate environmental safeguards are in (see Section 6). The Department is working closely with Wollondilly and Campbelltown Councils, sport for NSW and other relevant Government agencies to prepare the Strategies and address anding issues.
The c	traft Strategies will be subject to further consultation and public comment.
Subr	iversity and water quality nissions raised concerns regarding the protection of threatened and endangered species and gical communities, as well as concerns over water pollution in nearby rivers and watercourses.
Areas	Preliminary Strategy was informed by a Biodiversity Assessment and Water Management Study. s of high biodiversity value have been identified as unsuitable for development. Pathway steps lso proposed to ensure important habitat and biodiversity is properly addressed prior to any ning.
threa studie objec	Department recognises that physical infrastructure and the process of urban development can ten biodiversity and water quality. An important step in translating the findings of the technical es to a Land Use and Infrastructure Strategy is to ensure that conservation and water quality tives can be achieved through spatial or development controls. This will include ensuring that that cannot be protected in the development control phase is protected up-front in the rezoning ss.
part of and of throu and v	ation to potential biodiversity impacts, further investigations are currently being undertaken as of the preparation of Land Use and Infrastructure Strategies and at subsequent detailed planning development stages. The preferred approach to managing biodiversity impacts of development is gh the biodiversity certification process. This would run concurrently with the rezoning process vill deliver better environmental outcomes and save time and money for landowners over the opment cycle.
	r Macarthur Land Release Investigation Post Exhibition Planning Report

	ATTACHMENT 3 –TRIM 8520 – 8 AUGUST 201
developn Environm work, wh quality. T to the pre systems. relevant	vater management technical analysis is also in progress to identify required infrastructure and nent controls to positively manage water quality. The Department is working with the Office of nent and Heritage (OEH) and the Environment Protection Authority (EPA) to progress this ich will take an outcomes focussed and risk based approach to managing in-stream water his will involve developing appropriate land use plans and development controls that respond edicted impact of future urban development on the Hawkesbury–Nepean and Georges River The in-stream values identified by the Healthy Rivers Commission combined with the Australian and New Zealand Environment Conservation Council (ANZECC) guidelines will e analysis.
the devel	opment proposals will be required to comply with current environmental regulation as part of opment assessment process, which includes assessment and protection of listed flora and id water quality in the Hawkesbury Nepean catchment.
Submiss developn	r <b>ural character</b> ions raised concerns with aesthetic issues associated with the removal of vegetation for nent. In particular, several submissions raised concerns with the loss of historic rural es in Menangle Park and Mount Gilead.
by a strat items and more det heritage	sion to identify Menangle Park and Mount Gilead for urban development has been informed legic analysis of heritage and landscape values and constraints, including known heritage d conservation areas. These concerns will be considered further as part of the preparation of ailed plans for the area to ensure development is appropriately integrated with important and landscape values. Particular emphasis will be placed on limiting the visual impact of velopment on heritage items and their curtilages and conserving scenic vistas
communi	minary Strategy is predicated on the principle that maintaining separation between urban ties is important and achievable. Rural land between and around villages and the growth I be retained to provide visual separation and a buffer to areas of environmental significance.
<b>Air quali</b> Submissi quality.	<b>ty</b> ons raised concerns with future development and population being exposed to poor air
the Maca and ensu into grow quality is and prov	emical smog (ozone) and particle pollution is a concern across the Sydney Basin, including inthur region. The Department is working with the EPA and OEH to address these concerns ire opportunities for improving air quality and reducing exposure to air pollution are integrated th planning. This work will draw on EPA and OEH programs and initiatives to address air sues across the Sydney Region, including delivery of the NSW Clean Air Plan. Contemporary en policy actions will be incorporated in the implementation phase and potentially the Special sture Contributions Scheme.
exposure of air poll transport	I Use and Infrastructure Strategy will outline key development principles for managing to poor air quality with the goal that future residents are not exposed to unacceptable levels ution and that development does not worsen existing local and regional air quality. The strategy, including building active transport principles into transport corridors and urban vill focus on maximising active transit and public transport usage.
associate would oc mining/su	<b>ing</b> minary Strategy outlines a preference for a staged approach to managing coexistence risks ed with approved coal mining at Wilton. This approach anticipated that urban development cur first in already mined and subsided areas, and would progress in other areas once ubsidence was complete. The Preliminary Strategy sets out requirements that must be if rezoning of land encumbered by mining was to occur before the completion of approved
subsiden same tim	bmissions raised concerns with the proposed pathway steps. These concerns related to ce risks and community intolerance of mining, should development be allowed to occur at the e as mining, or the potential for mining to delay the delivery of homes, should mining be to occur first.

	ATTACHMENT 3 –TRIM 8520 – 8 AUGUST
stakeho agency existen to Gove	partment is working with the Department of Industry, Mine Subsidence Board, and relevant olders, including the proponents of urban development and mining companies. A Government working group is investigating potential solutions to the concerns associated with the co- ce of mining and urban development, to achieve certainty for the community and reduce risks ernment. The solutions will need to be considered and an approach endorsed by NSW Cabinet any rezoning of land affected by mining approvals occurs.
Some s	r <b>ns about urban sprawl</b> submissions raised concerns that the proposed land release is located far from the central r CBD and will contribute to urban sprawl.
	eliminary Strategy sets out a vision that is focused on delivering growth to support the Regional f Campbelltown-Macarthur and Liverpool.
City Ce Area, ir Badger positior	w communities are both located within easy access of the Campbelltown-Macarthur Regional intre and connections to the regional rail network. The new Western Sydney Priority Growth icluding the planned major centre of Leppington, the planned Western Sydney Airport at ys Creek and the Regional City of Liverpool are a comfortable commute. They are also ned to access beaches and recreational opportunities of the south and closer to the Australian Territory and snowfields than much of Sydney.
Macart acilitie Priority Macart	w community of Mount Gilead and Menangle Park will connect directly to Campbelltown- hur Regional City Centre, enabling direct and immediate access to existing public and private s including education, health and commercial services. Proposals for a new Greater Macarthur Growth Area will shortly be exhibited. This will coordinate the planning for the Glenfield to hur Urban Renewal Corridor and land release areas to maximise the opportunities in and the regional city centre.
own at own at obs with Highwa nas als	tinct new town at Wilton will be detached from the Metropolitan footprint but connected to it by and improved road and transport facilities as well as telecommunication networks. The new Wilton will cater for Wollondilly's growing population and will seek to improve the supply of thin the Shire. The creation of a new major town centre, well located adjacent the Hume y and Picton Road, will provide local employment opportunities. The Maldon employment area o been announced as part of the strategy. Early release of retail and commercial opportunities uld capitalise on the highway exposure will provide local jobs and better services to the region.
or be z	n corridors, additional bushland connections and the Cataract Gorge precinct will remain rural oned open space to provide a green band between the new town and the Sydney metropolitan irea. This will ensure that the new town is not just a theoretical exemplar of new environmental g but is distinctly anti-sprawl in its aesthetic.
4.2 -	Fransport and traffic
upgrad bus and	sions raised concerns about increased traffic resulting from development and the need for road es (in particular Appin Road and the Picton Road/Hume Highway intersection) and improved d rail services. Submissions outlined the importance of infrastructure being in place before g is built.
connec	elltown City Council's submission raised the need to ensure efficient, convenient and safe tivity between the new growth areas and the Campbelltown/Macarthur Regional City Centre. dilly Shire Council's submission seeks the extension of the bus priority corridor to Wilton.
transpo investig and tra develop	eliminary Strategy was informed by a strategic transport study, which identified regional rt infrastructure and road upgrades needed to support growth in the area. Further gations as part of the preparation of Land Use and Infrastructure Strategies will confirm the road nsport infrastructure and upgrades required as a consequence of proposed urban oment. This work will ensure the necessary upgrades are in place to support new development sure that roads are safe and adequate for current and future communities.
	partment is working with councils, developers and the transport agencies to address concerns he impact additional development will have on the capacity and safety of roads, including Appin

	ATTACHMENT 3 –TRIM 8520 – 8 AUGUST 201
mus	ad. The implementation of the growth areas is strongly grounded in the principle that infrastructure st be developed in parallel with growth and a satisfactory level available from the first dwelling upied and expanded in stages. Private sector investment in infrastructure is already occurring with design of a section of Appin Road upgrade work underway through developer provision.
the cont	coning will only occur in the new growth areas where they are supported by commitments to deliver necessary infrastructure. The Department is investigating establishing special infrastructure tributions schemes (SIC) for each growth area to secure private sector funding and delivery of essary enabling infrastructure.
ens	relopers will be required to fund and deliver this infrastructure, at no cost to Government. This will ure development does not come at the expense of infrastructure investment in other parts of Iney, including the North West and South West Priority Growth Areas.
Infra Urba esta	Department intends to consult on draft SIC schemes alongside the draft Land Use and astructure Strategies. Submissions from major landowners, Urban Taskforce Australia and the an Development Institute of Australia were generally supportive of a contributions scheme being ablished to ensure necessary infrastructure is put in place, provided the costs are reasonable and itable.
4.3	Community facilities and services
recr	promissions raised concerns with the capacity of social and physical infrastructure, including schools, reation and health facilities, to meet current and future needs of the community. The need for uired infrastructure to be in place before any new homes were built was also raised.
ider The	Department is working with councils, relevant government agencies and service providers to ntify the social infrastructure that needs to be delivered to support new communities in the area. Preliminary Strategy was informed by a strategic social infrastructure study, which identified ional infrastructure requirements.
prog curr	ther investigations as part of the preparation of Land Use and Infrastructure Strategies are in gress and will confirm the requirements required to ensure community facilities are adequate for rent and future communities. Landowners have identified and offered sites for key social astructure and begun to enter into arrangements with service providers.
the cont ena exis	zoning will only occur in the new growth areas where they are supported by commitments to deliver necessary infrastructure. The Department is investigating establishing special infrastructure tributions schemes for each growth area to secure private sector funding and delivery of necessary bling infrastructure. Some discreet parts of the growth areas, including those that are the subject of sting planning proposals, will be supported by a voluntary planning agreement, to support timely vision of homes and jobs.
Cou dete	ddition, local level community facilities will be delivered through section 94 contributions to incils or directly by developers as works in kind. These agreements will be evaluated and ermined by Councils in consultation with the Department. This will ensure a no-gap approach to the vision of infrastructure.
4.4	Employment opportunities
Son view the reco	missions raised concerns with the ability of future residents to access jobs and services locally. ne stakeholders, including local businesses and the Picton Chamber of Commerce and Industry, v the new growth areas as creating the opportunity for new employment opportunities and boosting local economy. Regional Development Australia and Campbelltown City Council have ommended the preparation of an economic development strategy to increase jobs and regional -containment.
beir emp	ployment generation has been an important consideration in our planning for the area, which are ng supported by economic and employment studies. The Preliminary Strategy identifies new ployment areas and town and village centres that will provide local jobs and services. This includes creation of a major new town centre at Wilton.

Requests for inclusion within the Menangle Park/Mount Gilead Priority Growth Area	Response
<ul> <li>extension of the growth area boundary south to the Campbelltown Council or Mallaty Creek catchment boundary, arguing this will enable more efficient precinct planning and delivery of servicing to the landholdings.</li> <li>Ingham Property Group - seeks extension of the growth area boundary</li> </ul>	transport corridor would also be required. The costs of this infrastructure would add significantly to the costs of development. The high level utilities servicing study indicated that servicing of this land is not likely to occur until after Menangle Park, Wilton and Gilead. This suggests the land provides longer-term development opportunities, post 2036.
south to include their land, arguing the land is unconstrained, will deliver an additional 3,000 homes and can be easily serviced by the proposed infrastructure upgrades in the growth area. The existing poultry operation on site is scheduled for closure in the short term.	To provide clarity of the long-term capability of this land, it is proposed to include these sites within the boundary of the proposed Greater Macarthur Priority Growth Area, to be exhibited shortly. Decisions relating to the timing of release and development of this land will be informed by further technical analysis of transport and utilities servicing requirements, environmental impacts, land use constraints and opportunities, and land supply and demand forecasts.
<ul> <li>Flow Systems, a water and energy utilities provider, seek inclusion of the Menangle within the growth area, arguing this area could be serviced as an adjunct to servicing of Menangle Park a Mount Gilead</li> </ul>	Menangle is separated from the proposed growth area by the Hume Highway and Cataract River. The growth area boundary was informed by a high level utilities servicing study that indicated that this land is likely to be serviced until after Menangle Park, Wilton and Gilead and West Appin have been developed. Large parts of Menangle are within the Menangle Landscape Conservation Area and/or subject to flooding, limiting the scope for large scale
	development. Local scale development opportunities will be considered through local planning processes, informed by the Wollondilly Growth Management Strategy.
Requests for inclusion within the Wilton Priority Growth Area	Response
<ul> <li>430 to 490 Douglas Park Drive – landowner requests inclusion in the growth area, arguing site is unencumbered by environmental constraints and (combined with the neighbouring St Mary's Retreat Centre) can provide a large number of dwellings The submission argues the land adjoins existing suburban development and can be cost effectively serviced.</li> </ul>	The sites are located within the Cataract precinct. While there are pockets of land identified as suitable for urban development, these are isolated from the Wilton Priority Growth Area by waterways and significant vegetation. Servicing large scale development in the precinct is considered costly. The high level utilities servicing study indicated that this land would likely be serviced last in an efficient utilities rollout.
(St Mary's Retreat Centre is not a party to the submission and has not made an individual submission.)	The Cataract precinct will remain rural in nature to provide green separation between the new town and the Sydney metropolitan urban area.
<ul> <li>20 Macarthur Drive – owner requests inclusion in growth area on the grounds that the site has potential for development and is serviced by utilities.</li> </ul>	Small scale development that is consistent with the rural setting can be pursued through local planning processes, informed by the Wollondilly

Page 12

Response Growth Management Strategy. The proposed sites are separated from the Wilto Priority Growth Area by Picton Road and a creel line. Access constraints along Picton Road limit the scale of growth opportunity in this area and would impose additional costs to implement satisfactory access arrangements.
The proposed sites are separated from the Wilto Priority Growth Area by Picton Road and a creek line. Access constraints along Picton Road limit the scale of growth opportunity in this area and would impose additional costs to implement
Priority Growth Area by Picton Road and a creek line. Access constraints along Picton Road limit the scale of growth opportunity in this area and would impose additional costs to implement
Small scale of development of this nature can be pursued through local planning processes, informed by the Wollondilly Growth Managemen Strategy.
This suitability of this land for development was not considered as part of the Greater Macarthur Land Release Investigation.
Its potential and the need for additional employment land in this location, is currently being considered as part of further investigations to inform a more detailed Land Use and Infrastructure Strategy for the area.

#### 4.7 Land at West Appin

Several submissions were received seeking designation of land at West Appin as a priority growth area. This land was identified as suitable for urban development by the Greater Macarthur Land Release Investigation, with capacity for approximately 18,000 homes. The submissions supporting land release argued that the release of additional land was necessary to meet Sydney's housing needs. The submissions argued the land was suitable for development as it was not encumbered by mining and not viable for continued agricultural use. It was argued that the cost of required infrastructure could be supported by the additional development and would provide the potential for improvements to existing local infrastructure.

In addition to those supporting land release, several submissions were received raising concerns with increased development in and around Appin Village on the grounds of impacts on roads (in particular Appin Road), biodiversity, heritage/archaeology, and impact on the rural setting of the village.

The Preliminary Strategy concludes that West Appin is not identified for major land release prior to 2036, but is identified as having potential for release in the longer term.

Land release at this location would trigger significant physical and social infrastructure requirements, including an east-west connection and interchange between Appin Road and the Hume Highway, a significant Nepean River crossing, additional upgrade of Appin Road, and the Appin bypass.

Utilities infrastructure needed to support growth can be rolled out most efficiently in Menangle Park and Mount Gilead before West Appin.

There is sufficient land supply to address the forecast demand for housing and employment land in the North West and South West Priority Growth Areas and also in the new proposed priority growth areas at Wilton and Menangle Park and Mount Gilead.

6	Implementation and next steps
6.1	Statutory Implementation
Centre areas, that the	ng consideration of consultation submissions, the proposed amendments to the Growth s SEPP will be finalised and gazetted. These will formally recognise the proposed growth providing certainty to land owners and infrastructure agencies. The amendment will also ensure e Preliminary Strategy (or future Land Use and Infrastructure Strategies) are considered in poment decisions.
outline	ended that the Wilton Priority Growth Area will be gazetted shortly, in line with the changes d in this report. The proposals relating to the Greater Macarthur Priority Growth Area will be ed for stakeholder and community feedback, before a final decision is made.
2015.	planning (section 117) direction was issued by the Minister for Planning on 22 September The direction applies to all future rezoning proposals across Greater Macarthur, and will ensure e consistent with the Preliminary Strategy.
	ne Land Use and Infrastructure Strategies are finalised the local planning direction will be ed to adopt the Strategies.
The Pr growth addres	eliminary Strategy and Growth Centres SEPP amendments are the first steps in delivering new areas at Wilton New Town, Menangle Park and Mount Gilead. Subsequent planning stages will s concerns raised by stakeholders and identify more detailed development controls and ucture requirements, which will be subject to further community consultation.
6.2	Strategic planning
and oth Strateg	partment is working closely with Wollondilly and Campbelltown Councils, Transport for NSW, her relevant Government agencies to prepare more detailed Land Use and Infrastructure jes for each priority growth area. This work includes further investigations into transport and ucture requirements and environmental safeguards needed to address the issues raised in sions.
Menan	ategies will provide further clarity on the future land use vision for the Wilton New Town, gle Park and Mount Gilead to guide rezonings and development, including the location of future ment land and centres, a road network, and potential transport corridors and staging scenarios.
	I technical investigations will be prepared or refined to inform the Strategies. These include:
:	Market demand analysis Economic and employment assessment
•	Transport infrastructure study
•	Social infrastructure and community development
•	Water management
•	Utility servicing strategy (water, electricity, gas and telecommunications)
:	Biodiversity and conservation Aboriginal and European heritage
	partment plans to consult stakeholders and the community on the Land Use and Infrastructure ies in the second half of 2016.
Contrib	ide work on the Strategies, the Department has begun work to establish a Special Infrastructure utions scheme for each new growth area that will secure private sector funding and delivery of ary enabling infrastructure, at no additional cost to Government. We anticipate reporting Ily on a draft infrastructure framework by the end of 2016.
	Ily on a draft infrastructure framework by the end of 2016. Macarthur Land Release Investigation Post Exhibition Planning Report

	PE1 – Greater Macarthur Priority Growth Area

6.3	Rezoning process
	Department will work closely with Wollondilly and Campbelltown Councils, relevant Government ncies, and major landowners to progress rezoning proposals for land within the new growth areas.
	proposed amendments to the Growth Centres SEPP do not rezone land in the growth areas. ting land use zones and permissible uses will continue to apply until rezoning occurs.
plan proc	oning of land within the priority growth areas will, at least initially, be through proponent led ning proposals, guided by the Land Use and Infrastructure Strategy. Rezoning through the SEPP sess may be used if needed to integrate proponent led proposals to ensure regional and State ters are satisfactorily addressed.
pote inve trans	h rezoning process will prepare technical studies that will consider a precinct's development ential in further detail and address key land use constraints and issues. This includes extensive stigations into Aboriginal and European heritage, land capability and contamination, noise, odour, sport, biodiversity, bushfire, water management, economics and employment, community facilities open space.
pack loca	se studies form the basis of a draft rezoning package, which is placed on public exhibition. The kage will outline proposed road patterns, future land uses, the mix and type of housing, and the tion of community facilities and local open space. The rezoning process will also ensure ropriate commitments are in place to deliver necessary infrastructure in time for new homes.
certi	preferred approach to managing biodiversity impacts of development is through the biodiversity ification process. This process will run concurrently with the rezoning process, informed by ropriate technical studies.
prog	Department is working with Campbelltown Council, Transport for NSW and major landowners to gress the merit consideration of active post-exhibition rezoning proposals to enable delivery of the homes in Menangle Park and Mount Gilead by 2018.
	oning of other precincts within Wilton New Town, Menangle Park and Mount Gilead is anticipated egin early 2017 and will be subject to community consultation.
	isions on the release and rezoning of additional land in Greater Macarthur will be considered as of future review and revisions to the Preliminary Strategy.
Page	18

# PE1 – Greater Macarthur Priority Growth Area ATTACHMENT 3 – TRIM 8520 – 8 AUGUST 2016 7.1 Appendix A: Explanation of Intended Effect Page 20

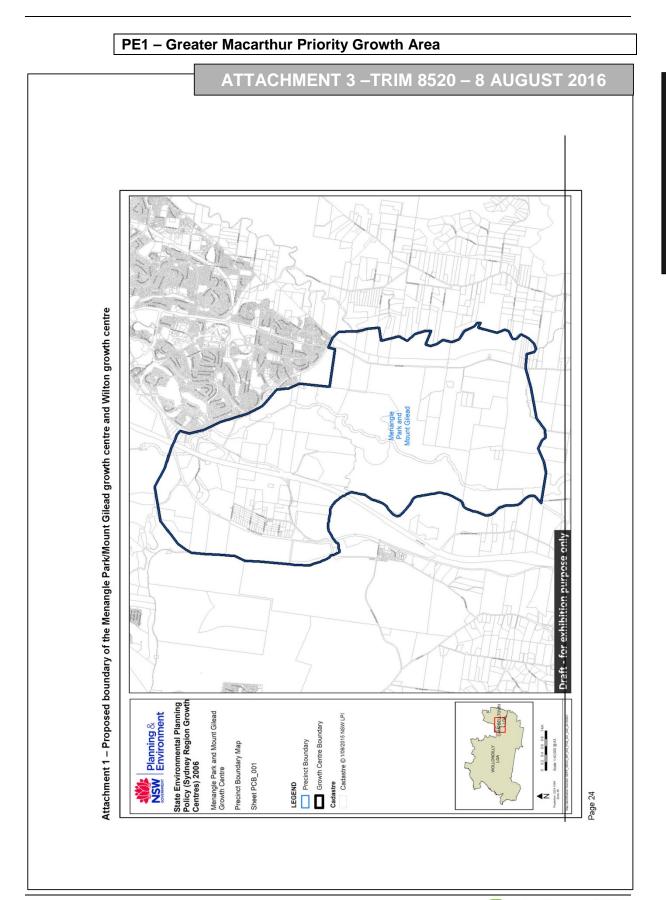

PE1 – Greater Macarthur Priority Growth Area
ATTACHMENT 3 –TRIM 8520 – 8 AUGUST 2016
Specific amendments proposed to Part 1 include:
<ul> <li>Clause 2(a): will be amended to refer to Menangle Park/Mt Gilead and Wilton, in addition to the current references to the North West and South West Growth Centres.</li> <li>Clause 3(1): amend the definitions of "growth centre", "growth centre precinct" and "growth centre structure plan" to refer to Menangle Park/Mount Gilead and Wilton, and to the Greater Macarthur Land Release Preliminary Strategy.</li> </ul>
Part 2 – Land use and other development controls resulting from precinct planning
Part 2 identifies the land use provisions applying to the carrying out of development within growth centres where detailed precinct planning has occurred.
The existing provisions of local planning instruments will continue to apply to development of land in the proposed growth centres until precinct planning occurs.
Future amendments to the SEPP will identify precincts that have been rezoned for urban purposes and the relevant land use provisions.
It is proposed to amend clause 7A to identify the Bingara Gorge Precinct has having been rezoned for urban purposes under Wollondilly Local Environmental Plan 2011.
Part 3 – Land Use – Environmental Conservation and Recreation Zones
Part 3 identifies land use provisions for certain land zoned Environmental Conservation or Public Recreation under the SEPP. No amendments are proposed to Part 3. In addition as the proposed SEPP amendments will not rezone any land, the provisions in Part 3 will not apply in the new growth centres.
Part 4 – Development controls - general
Part 4 sets out provisions relating to the assessment of proposed development in growth centres. It is intended that clauses 16 and 17 will apply to the proposed growth centres. No amendments to Part 4 are proposed at this time.
Clauses 16 and 17 will apply to land in the growth centres until precinct planning is finalised. Clause 16 requires a consent authority to consider how proposed development impacts on the delivery of desired future land uses in the growth centre.
Clause 17 requires certain development applications to be referred to the Department of Planning and Environment for comment. This clause will apply once land in a growth centre precinct has been released by the Minister under clause 276 of the <i>Environmental Planning</i> <i>and Assessment Regulation 2000</i> for urban development. The Minister intends to release land within the Menangle Park/Mt Gilead and Wilton growth centres following approval of the proposed SEPP amendments.
Clauses 16 and 17 will not apply to the Bingara Gorge Precinct as the land has already been released and rezoned for urban purposes.
It is not intended that clauses 18, 18A and 18B will apply to land in the proposed growth centres. The provisions of <i>State Environmental Planning Policy (Infrastructure) 2007</i> will continue to govern the carrying out of public utility undertakings.
Parts 5 and 6 – Development controls – flood prone and major creeks land and vegetation
The provisions of Parts 5 and 6 will not apply to the proposed growth centres. Existing state and local planning provisions relating to flood prone and major creeks land and native vegetation will continue to apply. Additional provisions can be drafted where necessary as part of the precinct planning process, guided by the rezoning pathway steps set out in the Greater Macarthur Land Release Preliminary Strategy.
<u>Part 7 – Development controls – cultural heritage landscape area</u>
Part 7 relates to land in the vicinity of Rouse Hill House Estate in the North West Growth Centre. The provisions will not apply to land in the proposed growth centres.
