

Letter of Appreciation – Restoring Blades Bridge - 16 June 2009

*I would like to thank you for resorting Blades Bridge. It was much needed by many of us locals, and the new bridge looks really nice, and the work was well and quickly done too.*

*Also, while I am writing this I would like to thank you for the consistent support Council has given to the cause of saving the river system from mine damage. I hope that you might have seen the article in the SMH about mine damage in the drinking water supply catchment, followed by yesterday's editorial "Water v Coal is no Contest". At last the message is getting through and you are partly responsible for this, especially due to grants towards the making of our two DVD's, we have distributed over 250 so far.*

*Four Corners is also researching a programme on the issue.*

*Thanks again.*
