THE ISSUES

Remediation of existing vehicle transport capacity issues including;

- Upgrades to Appin Road and Picton Road
- Duplication of Silverdale Rd between Warragamba/ Silverdale and Wallacia and/or a new link road between Silverdale to adjoining Local Government Area to the east (Penrith or Liverpool)
- Improved road linkages from Picton/Tahmoor to the Hume Motorway, including a Picton Bypass
- An improved road linkage between Wilton and in and around Appin (including heavy vehicle access and an Appin Bypass).

Appropriate transport network that provides connectivity throughout the Shire and the wider region that:

- Interconnects existing communities, proposed airport, proposed M9 corridor and development rezonings (including Wilton, Appin & Silverdale),
- Is also consistent with NSW Governments view on Western Sydney and Future Transport (including future proofing for Connected Autonomous Vehicles and electric bicycles)
- Is appropriately classified between State, Regional and Local with corresponding funding and maintenance provisions.

Implementation of High Speed Rail with a station in or near Wilton.

Increase passenger capacity, rail services and access to other public transport initiatives

- Seek justification of cuts to services on the Southern Highlands line

Completion of the Maldon/Dombarton Rail line.

Inclusion in the Resources for Regions program.
