MEDIA RELEASE

6 February 2018

‘Activate Wollondilly’ releases new Emergency Management Guide

Since receiving funding from the Office of Emergency Management in 2017, Wollondilly Shire Council and the Community Resilience Committee have implemented the Activate Wollondilly project and developed an Emergency Management Guide to assist residents in preparation for a natural disaster or emergency.

The Wollondilly Emergency Management Guide assists residents through key areas of preparedness, including where to source information and what to do in a crisis situation.

Mayor Judith Hannan said, “The guide has been developed with information from the SES, RFS and Emergency combat agencies.”

“It’s a great resource to have on hand and provides hints and tips to prepare for an emergency”

Activate Wollondilly focuses on key priority areas to support disaster resilience, to communicate and educate people about risks and to lead change to reinforce resilience and the preparedness of the community.

For more information or to obtain a copy of the guide please call Council’s Community Projects and Events team on 4677 9611.
