

GROWING WOLLONDILLY SHIRE

IS YOUR BUSINESS AS PROFITABLE AS YOU WOULD LIKE IT TO BE?

Local Growers and manufacturers in the Wollondilly Shire and adjacent areas are invited to a workshop to learn about higher-value opportunities for growth in agriculture. This is a good opportunity to hear what is possible from experts. The workshop will include practical activities and good insights to guide growers along the way.

Growers and manufacturers thinking of diversifying and growing their businesses are most welcome to attend. The purpose is to show opportunities, and introduce innovation tools and theory through examples and case studies. You will be given the tools, resources and support options to value add and we will highlight opportunities for support, funding and the next steps.

COST: Free!

DATE: Wednesday 24 October 2018
