TRIM 1022-4

**EXECUTIVE SUMMARY**

- This report provides details of Council’s invested funds as at 31 May 2017.
- It is recommended that the information and certification in relation to the investment of Council funds as at 31 May 2017 be noted.

**REPORT**

At its last meeting, the Reserve Bank maintained the cash rate at 1.50%. In relation to the domestic market, the Board of the Reserve Bank commented that:

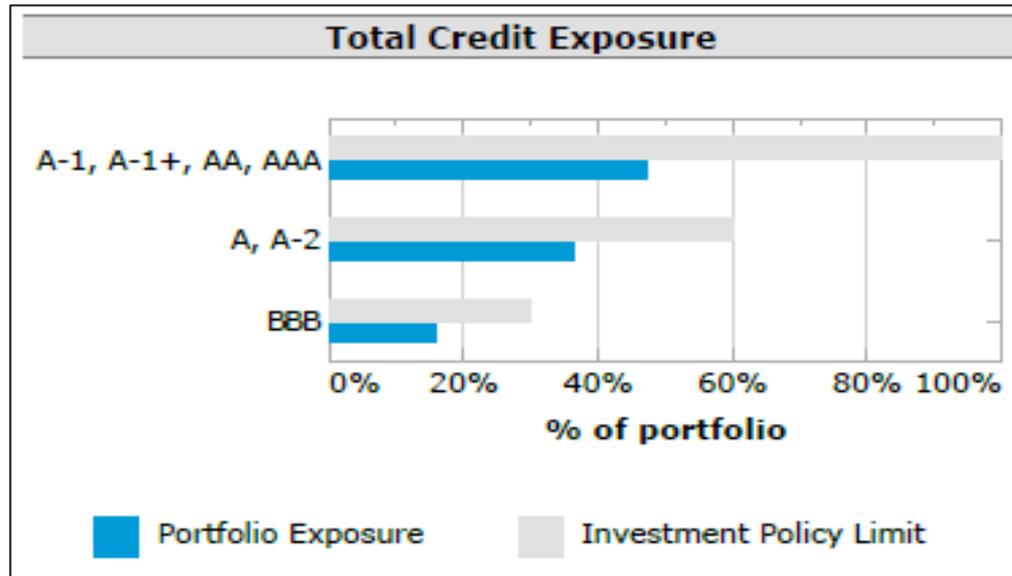

*“Domestically, the transition to lower levels of mining investment following the mining investment boom is almost complete. Business conditions have improved and capacity utilisation has increased. Business investment has picked up in those parts of the country not directly affected by the decline in mining investment. Year-ended GDP growth is expected to have slowed in the March quarter, reflecting the quarter-to-quarter variation in the growth figures. Looking forward, economic growth is still expected to increase gradually over the next couple of years to a little above 3 per cent.*

*Indicators of the labour market remain mixed. Employment growth has been stronger over recent months, although growth in total hours worked remains weak. The various forward-looking indicators point to continued growth in employment over the period ahead. Wage growth remains low and this is likely to continue for a while yet. Inflation is expected to increase gradually as the economy strengthens. Slow growth in real wages is restraining growth in household consumption.*

*The outlook continues to be supported by the low level of interest rates. The depreciation of the exchange rate since 2013 has also assisted the economy in its transition following the mining investment boom. An appreciating exchange rate would complicate this adjustment.”*

As shown in the following chart, the credit rating on Council’s portfolio as at 31 May 2017 is within Council’s investment policy limits.

Governance

The vast majority of Council’s investment portfolio (96%) is invested in deposits / securities with Australian Authorised Deposit taking Institutions (ADI’s). Council has been taking advantage of term deposit “specials” from various institutions without overexposing the portfolio to any one institution.

The marked to market valuations on some of the direct investment products in Council’s portfolio remain at less than the face value of the investment. The marked to market value of these investments is expected to be equal to or greater than the face value by the time they reach their maturity date. Early exit from these products would realise losses.

The following chart compares Council’s portfolio yield with the benchmark AusBond Bank Bill Index rate in each month for 2015/16 and 2016/17.

**GO2 – Investment of Funds as at 31 May 2017**

As shown in the chart above, Council’s portfolio yield has continually exceeded the benchmark AusBond 3 month Bank Bill Index due to the prudent investment of Council’s portfolio. For May 2017, Council’s portfolio yielded 2.96% and returned 3.02% for the month compared to the benchmark’s 1.72% pa return.

The following chart summarises Council's portfolio performance for the previous 12 months:

<b>Historical Performance Summary</b>			
	<b>Portfolio</b>	<b>AusBond BB Index</b>	<b>Outperformance</b>
May 2017	3.02%	1.72%	1.30%
Last 3 Months	2.94%	1.79%	1.15%
Last 6 Months	3.05%	1.79%	1.27%
Financial Year to Date	3.02%	1.82%	1.20%
Last 12 months	2.97%	1.84%	1.14%

Under Reg 212 of the Local Government (General) Regulation 2005, Council’s Responsible Accounting Officer must provide Council each month with a written report setting out details of all money that Council has invested under section 625 of the Act.

Details of Council's investment portfolio as at 31 May 2017 are provided in Attachment 1.

**CONSULTATION**

Independent advice regarding the investment of Council funds was provided by Prudential Investment Services Corp.

**FINANCIAL IMPLICATIONS**

Interest earned is allocated to restricted cash and income in accordance with Council’s adopted budget, policy and legislative requirements.

The following chart compares the projected interest for 2016/17 with the prior year’s interest income.

Council’s investment income for 2016/17 is expected to be similar to the investment income received in 2015/16. However, as the RBA has continued to keep interest rates low, the expected investment income will be reviewed and revised as more information becomes available.

The prudent investment of funds is necessary to ensure Council’s long term financial sustainability.

**CERTIFICATION**

I hereby certify that Council’s investments have been made in accordance with Sec 625 of the Local Government Act 1993, clause 212 of the Local Government (General Regulations) 2005 and Council’s Investment Policy.
